Experience

MERN Developer Apr 2024 - Oct 2026
Five Online Website Solutions Pvt Ltd *Mumbai, Maharashtra*

- Designed, built, and supported production applications for **10+ clients** across **finance, real estate, and media**, working directly with client stakeholders to turn business requirements into scalable full stack solutions.
- Designed and implemented **100+ RESTful API endpoints** in Node.js/Express with **JWT authentication** and **Role-Based Access Control (RBAC)**.
- Built **React + TypeScript** admin panels that let non-technical client teams manage content and data independently, reducing developer dependency for routine updates.
- Reduced average page load time by up to **40%** through API optimization, **Redis** caching, and rendering improvements.
- Used **GitHub Copilot** to speed up code generation, refactoring, and documentation, reviewing every suggestion and validating APIs with **Postman** before shipping to production.
- Supported production releases of Node.js backends on existing **AWS EC2** servers running **Nginx**, accessed over SSH via an OpenVPN tunnel; integrated **AWS S3** for media storage and deployed applications on **Vercel** and **Render**.
- Followed **Git**-based workflows with code reviews across multiple concurrent projects, and **mentored junior developers** on API design and coding standards.

Web Development Intern Sep 2023 - Oct 2023
Prodigy InfoTech *Remote*

- Built and deployed **5+ responsive web applications** using JavaScript and React.js with clean, reusable components.

Projects

Piper Serica | **React.js, Node.js, MongoDB, JWT, Redis** | **Link**

- Built an **investment dashboard** for an asset management firm, improving data load performance by approximately **30%** through optimized API integration and **Redis** caching.
- Secured the platform with **JWT authentication** and **CORS**, **Helmet**, and **CSP** security headers.

Raymond Realty | **Next.js, TypeScript, Node.js, MongoDB, Zustand** | **Link**

- Built new modules across the **frontend, backend, and admin panel** of a large-scale live platform, and resolved **production issues** to keep it stable.
- Integrated **Salesforce** with enquiry forms for automated lead capture into the client's CRM.

Hindustan Pencils Pvt. Ltd. | **Next.js, TypeScript, Node.js, MongoDB** | **Link**

- Developed **Careers**, **Channel Partner**, and **Export** modules with admin workflows for managing job openings, partner enquiries, and export requests.
- Implemented **dynamic filtering**, form handling, and reusable backend APIs shared across modules.

Natroyal Group | **React.js, Node.js, MongoDB, AWS S3** | **Link**

- Built a responsive, production-ready React.js website covering the group's **5 business divisions**, with backend APIs and an admin panel to update content dynamically, storing uploaded media on **AWS S3**.
